

SWAZILAND

PRESENTED BY ; DUNSILE VILAKATI

NEW SOURCES OF DATA IDENTIFIED

- HIES REPORT – 2000-2001
- DHS REPORT – 2007-2008
- MONTHLY REPORTS ON CONSUMPTION LEVELS ON WHEAT AND MAIZE FLOUR
- WHEAT AND WHEAT PRODUCTS REPORTS FROM CUSTOMS
- CURRENTLY
 - MCIS
 - VAC
 - CHS

QUESTIONS FOR OTHER COUNTRIES AND EXPERTS

1. What are the experiences of other countries with small-scale millers on fortification? We need a step by step description and the cost implications involved.
2. Do the regional blocks existing in Africa have a forum of sharing experiences and lessons learned and harmonize their standards?
3. What is the advice of the experts when it comes to labeling standards, which expiry date to put on the label, the one for the fortificant or the product?
4. How often are ECSA standards reviewed and who reviews them?
5. What are the expert advice when it comes accreditation of laboratories? We believe accreditation is an integral part of this whole initiative.

LESSONS LEARNT

- ✓ Success of voluntary fortification without any recalls
- ✓ Opening of international markets
